

The Brighter Choice

# DALLAS PRO

Adaptive. Modular. Dynamic.

**UGR<19**  
Less glare, more focus

## Functional & Stylish

**Optimised lighting for productivity and efficiency.**

DALLAS PRO is designed to boost productivity, efficiency, and focus with its advanced UGR<19 glare-reducing lens. By minimising glare, it creates a comfortable and effective environment for studying and working. Its sleek, modern, and modular design seamlessly integrates into any workspace, offering both style and performance.

**Ideal for:**

Education

Office

Commercial

Standard in white and black  
with custom colour options

### Enhanced productivity

UGR<19 minimises glare, reducing eye strain and enhancing comfort, focus, and performance, within the working and learning environments.

### Enhanced efficiency and sustainability

Featuring selectable wattage with up to 151 l.lm/c.W efficacy and EPD verification.

### Compliance

Easily meet compliance requirements with comprehensive documentation on performance, efficiency, environmental impact, and construction.

### 7-Year warranty

Industry-leading, hassle-free warranty, covering unlimited hours from installation.

## Creative Freedom

Elevate your space with DALLAS PRO, expertly crafted to create striking lighting designs that seamlessly align with your style, layout, and brand identity.

### Coupling kits

#### Design without limits

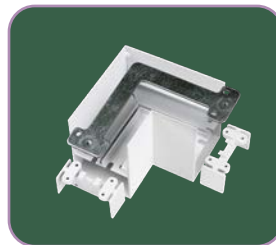

Craft unique, bespoke designs by seamlessly combining modular units to create custom shapes and angles tailored to your project needs.

#### Effortless installation

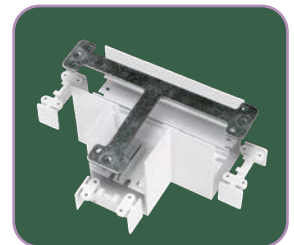

Experience flexible mounting options designed for any space. Select between suspended or surface mounting to seamlessly fit your environment.

#### Endless possibilities

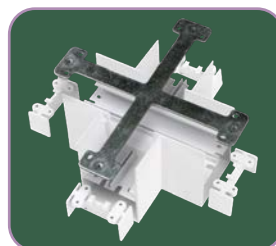

Available in X, L, T and straight configurations, offering flexibility for creative and functional lighting solutions.

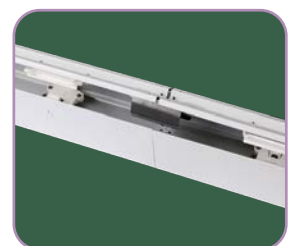

"L" COUPLING KIT

"T" COUPLING KIT

"X" COUPLING KIT

STRAIGHT COUPLING KIT

Standard in white and black  
with optional colours and patterns

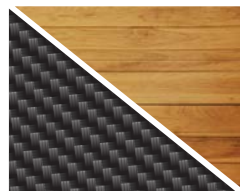

## Custom Finishes

The DALLAS PRO comes in sleek black and white, with custom RAL colour matching and unique finishes, including patterns, for seamless integration into any project.

### RAL matching

Bespoke powder coated body. Choose from over 2,500 colours to perfectly match your vision.

### Custom patterns

Distinctive textures and designs tailored to elevate your vision with style and character.

### Quick delivery

Fast, efficient, and tailored: Bespoke colour matching to meet your needs.

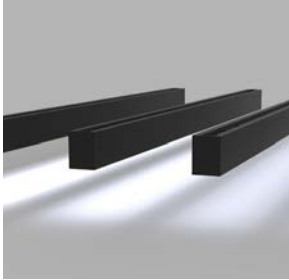

### UK based

Locally completed powder coating: Saving time and cutting CO<sub>2</sub> emissions.

# Why DALLAS PRO?

## Multi-wattage selectable

Offering flexibility to adjust the light's brightness to suit different needs, from energy-efficiency to customised illumination for various spaces. Simplifies installation and future proof the environment.

## UGR<19

A balanced, neutral white light that closely mimics natural daylight. Combining with a UGR<19 lens allows for less glare, reducing eye strain and generating a more comfort, focused and productive environment.

## "Down only" or Bi-directional

Providing balanced illumination in both directions, enhancing light distribution and creating a more uniform lighting effect. Or direct illumination for more focused light.

## Control

Effortless wireless lighting control. Seamlessly manage individual or grouped luminaires without the hassle of physical connections.

# Easy to Install

Mounting plate with piano-key terminal block for loop-in / out and through wiring

Male / female electrical connectors allow the main body to be detached from the mounting plate

Die-cast aluminium end caps (removable)

Snap-fit connectors to secure main body to mounting plate

Stainless steel safety wire

Main body. Extruded aluminium, powder coated RAL9016

BLANK IN-FILL SPACERS  
AVAILABLE IN VARIOUS LENGTHS

WIRE SUSPENSION KIT - 1.5M  
COMES AS STANDARD WITH  
BI-DIRECTIONAL VERSIONS

### Down-only with manual test emergency (M3L)
